

Xiao-Su YI (Prof. Dr.-Ing.): Dipl.-Ing. (M.S.) 1982 and Dr.-Ing. (Ph.D.) degree 1986 in Material Engineering at University of Paderborn, Germany. Full professor in Polymer Materials and Technology at Zhejiang University 1988-1998, Beijing Institute of Aeronautical Materials (BIAM) 1998-2011, AVIC Composite Centre (ACC) since 2010 and the University of Nottingham Ningbo China (UNNC) since 2017 in parallel. Fellow of SAMPE (F. SAMPE), Fellow of Aviation Industry of China (AVIC), Executive Vice President of SAMPE Global, Academician of APAM (Asia-Pacific Academy of Materials). Publication of about 400 papers, 8 books and about 60 patents. Research interests in structural and functional composites, polymer materials, green materials, process engineering, materials modelling and surface technology.
